Ref: 98199 - 6221236981992

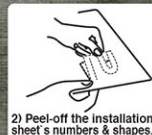

Clock Size: 60x43 cm Clock Material: EVA Red Cork Foam

## Instructions:

1) Clean & dry surface.

2) Peel-off the installation sheet's numbers & shapes.

3) Hold the installation sheet & put the removable adhesive tape on the corners of the backside.

4) Put the installation sheet on the surface & press on the adhesive area.

5) Carefully separate shapes from EVA foam & Cork sheets & remove the cover of the tape on the backside of EVA foam & Cork.

6) Start to put EVA foam parts one by one, to complete the shape according to the empty spaces on the installation sheet.

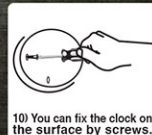

7) After having fixed all parts, remove the installation sheet.

8) Install battery in designed place on the backside & the clock arms on the front side. Set the time & your clock is ready to be placed on your preferred surface.

9) You can fix the clock on the EVA foam or on surface using removable adhesive tape.

10) You can fix the clock on the surface by screws.
